It is seen that the area of Kansas is ninetoon thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is ninety-five thousand miles greater than that of all the non slaveholding dates except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mealila will be embraced in one territorial erganization by Congress at the present session, containing 288,000 square miles—exceeding all New England, New York, Pennsylvania, Joho, Indiana, and Illinois. Washington exceeds in extent all New England and New York.
